De Achtbaan is a Dalton Child-Centre with the goal of ensuring that every child is being optimally prepared for the future, further education, and society. Children and school content are dealt with based on a shared pedagogical vision. A continuous line in the learning of skills, from kindergarten till group 8 and our after school childcare centre, is of the utmost importance.

Since 2005 the school, with 300 pupils and 25 teachers, has officially been a Daltonschool.

***One must know the past and understand the present,
to be able to see the future!***

Over the past few years, we have welcomed and met colleagues from various countries at our school to discuss the vision of good Dalton education based on a shared Vision.

Within our education, we focus on different elements that we have visualised with pictures. **Flowers:** Growth, every human being is naturally eager to learn. **Director's chair:** Taking responsibility for your own life. **Champion's cup:** Victory, yes now I can do it myself! **Umbrella:** Protection, trust to be free. **Compass:** Movement, discover your own path. **Fish:** Independence, I want to do it myself. **Knot:** Working together in connection with each other. **Shells:** Visibility, let yourself be seen and heard. The strength of our school lies in the cooperation with and between children, parents and professionals based on our shared Dalton vision: Structure for those who need it, space, and freedom for those who can handle it.
